Business Overview

www.pumpsupplies.co.uk

Founded in 1982, Pump Supplies is a leading supplier of electric submersible pumps into the UK and Irish market. Operating out of 5 strategically located depots our business specialises in all aspects of submersible pumps, from hire & service to sales and pump station installation.

As the UK's leading distributor of Flygt pumps we hold unrivalled stock levels of new pumps, spare parts and accessories all tailored towards offering a complete solution to our customers.

Service and Maintenance

Our workshops undertake mechanical repairs and servicing on both clients assets and our own fleet. Each depot holds vast stocks of spare parts allowing work to be completed on all equipment from instrument and control panels through to a wide and varied array of pumps.

There is nothing our skilled and experienced team of engineers cannot handle. Our clients value the robust quality, testing systems and procedures provided, ensuring a reliable service and product.

Pump Stations

We have built up a solid track record of installing and upgrading pumping stations. Our knowledge and skill enable us to provide customers the best solution whether that be a pump station refurbishment, new installation or service maintenance packages.

Our experience and knowledge allows us to provide a service through the entire life cycle of a pump station, through design & approve stages to electrical and mechanical commissioning, whilst providing full aftermarket service packages.

Pump and Accessories Hire

Pump Supplies owns and operates the largest fleet of electric submersible pumps in the UK. Our specialist fleet contains pumps varying from small single kW portable pumps to large 250kw units capable of flows up to 1600l/s, and is specifically tailored to suit the changing demands of the UK market.

Our hire fleet is not pumps alone; we also carry vast stocks of pipework in multiple sizes and materials. Added to this are control panels & VFD's, road ramps, settlement tanks, floatation pontoons and flow meters.

Pump and Spares sales

Pump Supplies are leading distributors of many pump brands, most notably Flygt, renowned for quality, reliability, pumping efficiency and being at the forefront in pump innovation.

As leading distributors we offer very competitive pricing backed up with vast stocks of pumps up to 90kw and the largest stock of the most commonly used Flygt spares in the UK - all available for immediate despatch.

Monitoring and Control

Our in house knowledge and innovation ensures that we are able to meet our customers' needs for all temporary and permanent monitoring and control requirements. Our extensive skills include monitoring of flow, chamber levels and water quality all supported with the ability to stream real time data directly to our clients preferred device, smart phone or via the web.

The integration of this intelligent information with our variable speed drives allows for precise pump control giving clients accurate information of assets performance and flows when situations demand.
